* Net Book Value is computed as Book Value reduced by purchased interest and the amortization of premium and increased by the accretion of discount of the Investment Portfolio. Net Asset Value (NAV) is equal to Market Value divided by Net Book Value.

** Specific non pooled investments are reported in compliance with Government Code Section 53646 (b)(1). Detailed descriptions are included in the inventory listing in Section VII.

*** The same percentage as the current yield was used for the average yield, as investment acquisitions started near the end of the month.
