OC Waste & Recycling

South Region

San Juan Capistrano, California

General Information

History

The Prima Deshecha Landfill began operations in 1976 to service south Orange County. The landfill was named for the canyon in which it is located, the Prima Deshecha Cañada, Spanish for First Rough Canyon. Approximately 200 acres are currently under biological pre-mitigation to offset future land disturbance.

Environmental Protection

The Prima Deshecha Landfill installs and maintains environmental protection technology to protect the water, air, and habitat from the effects of landfill waste disposal. Environmental programs include:

- Partial composite liner system protects groundwater. The first composite liner at the site was constructed in 1998 in Zone I.
- Landfill gas monitoring, recovery, and control systems include more than 105 gas collectors.
- Groundwater monitoring wells.
- Groundwater collection system.
- Leachate collection and recovery system.
- Energy generation facility utilizing landfill gas as fuel.
- Radioactive waste detection program.
- Onsite Material Recovery Facility to divert and recover recyclables.

OC Waste & Recycling works cooperatively with regulators to ensure the landfill operates in full compliance with all Federal, State, and Local codes, ordinances, and regulations.

The landfill is subject to regular inspections from the California Regional Water Quality Control Board, the South Coast Air Quality Management District, CalRecycle and the Orange County Health Care Agency to ensure compliance with all applicable regulations.

Onsite Household Hazardous Waste Collection Center

Residents may safely dispose of common household materials such as paint, pesticides, fertilizers and e-waste.

In Fiscal Year 2015-16, nearly participants brought in approximately 3,900 tons of hazardous materials to County collection centers and events.

The Center includes a Materials Exchange Program where residents may get **FREE** used materials for home projects. In Fiscal Year 2015-16 more than 22,000 visitors used this program.
